BRING YOUR PEOPLE TOGETHER

Our team, at Technical Elements, will create a unique Drive-In experience for your church. Bring your congregation together in a safe way by utilizing your parking lot and broadcasting your service! Bring people together safely and help them feel connected to each other and your team.

Sending your message to people, in an innovative way, will show how much you care about them and their journey through these trying times.

OUR BEST SERVICES

- A mobile stage that adheres to the social guidelines currently in place.
- Screens of any size to ensure everyone has the best possible view to the stage.
- Broadcast directly to car radios or use a speaker system.
- Cameras to continue live streaming to those unable to attend.
